### Jacob Jensen, exclusive sound for Tangent

Internationally acknowledged, particularly for his long-term partnership with Bang & Olufsen, Jacob Jensen left his mark on the history of 20th century design. Jacob Jensen demonstrated that everyday products can be stylish, combining sleek contours and a simple design with light and dark contrasts. At the request of Philippe Carré, CEO of the AV Industry Group and owner of Tangent, Jacob Jensen decided to make a return to the audio world and alongside the former, to create a genuine designer object with undisputed acoustic qualities. And so was born the Fjord Mini portable speaker.
